The Knock-out Blow.

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing home to the public a parallel fact; that the stomach is the most vulnerable organ out of the prize ring as well as in it. We protect our heads, throats, feet and lungs, but the stomach we are utterly indifferent to, until disease finds the solar plexus and knocks us out. Make your stomach sound and strong by the use of Doctor Pierce's Golden Medical Discovery, and you protect yourself in your most vulnerable spot. "Golden Medical Discovery" cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. *Why* the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed *free* on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead.

Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

BORAH'S ARRAIGNMENT OF HAYWOOD.

In a speech characterized by much logic and intellectual power and an eloquence that glowed and flamed from hour to hour until the fabric of an accusation dazzling and crushing in its force had been built up, Senator William E. Borah last night concluded his arraignment of William D. Haywood and the other leaders of the Western Federation indicted in Boise, Idaho, for the murder of ex-Governor Frank Steunenberg. Judge Wood charged the jury this morning and the case is now in their hands.

For three hours in the morning and three more hours in the evening Senator Borah held the crowded courtroom spellbound. The jurors sat up straight in their chairs. The lawyers for the defense gazed on the prosecutor as if hypnotized. Haywood himself fixed a fascinated eye upon the Senator during all those six hours. His wife wept softly to herself at frequent intervals. His mother stood it as long as she could, but had to leave the courtroom before Borah had been talking an hour and a half. The widow of Frank Steunenberg was also overcome and had to be led out early in the afternoon.

The Senator reversed the process of argument followed by the other lawyers in the case. He took up his stand by the little gate in Caldwell, stained with the blood of Frank Steunenberg, and he followed Harry Orchard's trail backward from the spot, and he took with him on his quest every soul in the courtroom while he held them, as he said, to that flight of stairs in Denver that leads to the former office of William D. Haywood.

There was in all his speech a clearness most unusual in argument. He did not encumber his address with a mass of immaterial detail, but he took one fact and he put another with it and to those two he added a third, and so on, until before the eyes of his auditors the whole structure of his argument appeared complete and flawless.

He built up his pictures of the conspiracy that sent Harry Orchard, now in jail, and Jack Simpkins, now a fugitive from the law, to Caldwell on their murderous mission, until those who heard him could almost see the plotters, as he called them—Haywood, Moyer and Pettibone—at work there in Denver. And he did it all without the evidence given by Harry Orchard, by the aid of evidence independent of his testimony, but corroborating it.

The blood of every man who heard him leaped within his veins when the Senator cried: "Watch these five men—Haywood, Moyer, Pettibone, Simpkins and Orchard. In a little over 30 days Frank Steunenberg is going to die. Watch the movements of these men, one of whom has since confessed, a second of whom is today a fugitive faom justice and a third of whom is down stairs in jail this moment and afraid to testify."

Another of the most dramatic moments of this speech came when the Senator quoted from the admitted organ of the Western Federation of Miners, the Miners' Magazine, a cruel paragraph printed after Steunenberg's death, and which said of the ex-Governor: "The press dispatches report the dissolution via the bomb route."

As he finished reading this paragraph the Senator's form grew rigid, his bulldog chin seemed visibly to protrude, his eyelids closed until you could see his eyes only through too narrow slits. He tossed the magazine to the table and there was deadly silence for a moment before he broke it with the ringing words:

"Well might Orchard say that Haywood told him: 'Kill him! Kill Frank Steunenberg, not alone for what he has done: kill him, so that our enemies may know that we do not forget, that we do not forgive.'"

"I hardly need to tell you sensible men," declared Senator Borah, "that Pinkerton detectives had nothing to do with the assassination of Frank Steunenberg. That is one of the most absurd of the many absurd things brought into this case by the learned counsel for the defense."

MUTINY OF THE REGIMENT.

While Emperor Nicholas was reviewing the troops encamped at Krasnoye-Selo on Wednesday the Seminosky Regiment refused to participate in the maneuvers and broke up the order of parade. They demanded the retirement from their command of General Reiman, who, with General Min, whom Reiman succeeded as commander of the regiment when Min was assassinated at Peterhof in August of the last year, ruthlessly put down the Moscow uprising in December, 1905. The regiment was immediately dismissed from parade and its barracks searched. Much illegal literature was found, and four soldiers of the regiment were placed under arrest.

BERLIN'S JACK THE RIPPER.

A series of cold-blooded crimes, singularly resembling the "Jack the Ripper" murders, but for the fact that instead of women the victims were little girls, followed one another with remarkable celerity in Berlin yesterday afternoon almost in the center of the city and aroused the most intense excitement and indignation.

Within a short space of time the assassin successively enticed three girl babies, the oldest only five years old, into doorways of houses and stabbed them several times in the abdomen with a sharp instrument. As a result one of the children is dead, another is dying and the third is dangerously wounded.

Last night the streets of the city and suburbs were patroled by large numbers of police. The most intense excitement prevails and the people are discussing the question whether or not the murderer is still at large, and whether the bloody deeds are likely to continue.

The Doctor Away from Home when Most Needed.

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like cramp colic and cholera morbus require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Dirrahoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by W. F. Creighton & Co. and Gibson & Timberman.

MURDEROUS ASSAULT.

Because he reproved two tipsy men for insulting a lady on the street in Portsmouth yesterday Police Commissioner Oscie Dashiell was beaten and his wife, just convalescent after an attack of typhoid fever, was murderously assaulted with a piece of iron pipe.

After they were reproved by Mr. Dashiell for their improper behavior the men passed on, but they returned a few minutes later and, entering the commissioner's office beat him unmercifully, dragging him into the street to complete the punishment. Mrs. Dashiell came out and protested, whereupon one of the men seized a piece of iron pipe and struck her on the head with it.

An angry crowd followed the men, who showed fight, but who were finally overpowered and locked up. They gave their names as Robert Ratcliff and Thomas Dowdy.

Alexandria Gazette AND VIRGINIA ADVERTISER

SATURDAY EVENING, JULY 27, 1907.

A SENSATIONAL report to Congress on the subject of safety appliances on railroads may be looked for next winter from the board of engineering experts, appointed a few months ago by the Interstate Commerce Commission as a result of the terrible Terra Cotta wreck, near Washington last winter. This board was appointed by the authority of Congress, and $50,000 was appropriated to enable it to make an investigation of the block signal system and the other devices and appliances used by railroads to insure the safety of the traveling public. It was announced a few days ago at the interstate commerce commission that one of the members of the engineering board, Mortimer E. Cooley, dean of the Engineering Department of Michigan University, has been detailed to make an investigation of the frightful wreck on the Pere Marquette Railroad, Saturday, when over 30 persons lost their lives. In connection with this announcement it also developed that the engineering experts in their investigation of railway safety appliances have had some decidedly sensational evidence laid before them. They have been informed that it is the practice of the manufacturers of safety appliances to buy up the patents on new devices and suppress them in order that the sale of the more ant'quated devices in use may not be interferred with. In some instances, it is said, the newly-patented safety appliances are not only more effective than the old ones, but are very much cheaper, which is another reason for keeping the old ones in use. The board is having a thorough search made of the records of the Patent Office, with a view to ascertaining just what improved safety devices have been patented in the last few years and suppressed as a result of the manufacturers of devices now in use getting control of the patents. In evidence laid before the board the biggest makers of railway safety appliances in the country are named as having been guilty of suppressing new patents for the purpose of keeping their present manufactures in indefinite use on the railroads. It is also said that some of the concerns engaged in the manufacture of safety appliances have railroad officers as their principal stockholders, and even members of their board of directors. In one instance, it is alleged, the inventor of a safety appliance now in general use on most of the great railroads of the country found it impossible for a long time to induce any railroad to adopt his device. Finally he was compelled to sell his patent for a comparatively small sum. Then a company was formed, made up, it is alleged, of officers of a big system, and the new device was speedily introduced throughout that system. Later the other roads of the country found it necessary to install the device. It can readily be seen why a device controlled by railroad officers would be kept in use in preference to introducing a new one out of which the officers would not get any profit. It is probable that the next session of Congress will be called on to pass some drastic legislation on the subject of safety appliances on railroads as a result of the investigation now making by the Board of Engineers appointed by the Interstate Commerce Commission. It is also probable an effort will be made to secure amendments to the patent laws which will make void patents on articles which are not manufactured and placed on the market within a certain space of time after the patents are granted. In some European countries there are provision of this kind in the patent laws.

"THE victory of Germany over France in 1870," says a Paris correspondent in a Berlin paper, "was emphasized by the wine growers of France in the recent disturbances. Bismarck, Moltke and Roon should have lived to see how a few years after the victory another was won by hops and malt, for it is certain that if German beer had not invaded France the situation never would have been possible. The French people knew beer only to despise it before the peace of Versailles. After that time it gradually crept into favor. It was a bad day for the Frenchman's traditional aversion for beer when the report was printed that Napoleon III, in his forced retreat at Wilhelmshohe, had ordered beer. As beer grew in favor the consumption of wine became less. In the restaurants, where nothing had ever been sold but wine, tables were set aside for beer drinkers, and these have in many instances crowded the unconvertable to the wall. The opalescent absinthe glasses in the boulevard cafes have been succeeded by mugs of various shades of amber, and the men who made the change are better for it. There is still much wine consumed in France, but it is growing less because of the growing popularity of beer, and that is the pith of the wine growers' troubles.

THOMAS DIVERS, one of the 28 men indicted by a special grand jury in Roanoke for rioting when a mob, two weeks ago, smashed all the Greek restaurants in town and overthrew the police, was tried in the Police Court yesterday on a charge of misdemeanor. He was fined $50 and sentenced to jail for 30 days. Divers is the fourth man to be convicted. The action of the Police Court of Roanoke will be commended by all law-abiding citizens. There is an evident disposition on the part of a certain percentage of people in all communities to bring on an era of lawlessness, and the sooner the authorities institute heroic measures against such the better. The Police Justice pursued the proper course in adding a jail sentence to the fines of those who had assaulted the Greeks in Roanoke.

IN THE Chancery Court of Richmond yesterday Judge Grinnan handed down a decree holding unconstitutional the act of the General Assembly wherein the clerk of that court is vested with the power of probating wills. Many lawyers are unable to say with legal accuracy what the general effect will be in the event that the higher court takes the same view as that given by Judge Grinnan. Indeed, the question is of such far-reaching importance that a multiplicity of suits may possibly be entered in every city and county in the State. This is a most unfortunate state of affairs and shows great lack of legal knowledge by those who framed the law.

From Washington.

[Correspondende of the Alexandria Gazette.]

Washington, July 27.

Assistant Attorney General Sanford, who has been in North Carolina endeavoring on behalf of the President to arrange a compromise between the State and federal authorities in the railroad rate war, arrived in Washington this morning to consult with officials of the Department of Justice. The action of Judge Lyon, of the State Superior Court, at Marion, in causing the indictment and arrest of the Southern Railroad ticket agents at that place and Old Fort, it is held here, puts the issue squarely up to Judge Pritchard, of the federal court. His order of June 29 enjoined the officials of the State "and all other persons from instituting prosecution or attempting to impose penalties" for failure to put into effect the new 2 1-4 cent State railroad rate law. Whether Judge Prichard will now proceed to punish for contempt the officials responsible for the action at Marion yesterday is a question. Administration authorities here do not see how he can well avoid taking such a course. Owing to the high state of feeling in North Carolina against Judge Pritchard's rulings, it would be no surprise if the Judge would call upon Washington for assistance in enforcing them.

From an authoritative source it is learned that the government is prepared to act decisively when the breach comes if peaceful overtures are finally rejected. A belief is gaining ground that deputy marshals will not be sent to Judge Pritchard's aid. It is not believed a crisis can arise before next Tuesday.

The announcement from Guatemala that the Supreme Court of that State has confined the death sentenced passed upon all of the prisoners detailed as accomplices in the recent attempt upon the life of President Cabrera was anticipated at the State Department. The department of State is advised by the American Consul General at Canton of the execution, by the order of the Viceroy at the place, of the Chinese who was previously convicted of the murder of Mrs. Mechle, a member of the American Presbyterian Mission at Lienchow, China. The Culprit on appearing for trial before the proper authorities confessed his guilt. The execution of this Chinese now makes a total of four murderers who have expiated their crime by decapitation.

Telegraphic advices received at the Department of State from the American Consul at Harbin are to the effect that the cereal crops throughout northern and Central Manchuria are very badly injured owing to a severe drought.

Over-crowding of steamers must stop. This is the declaration of General Uhler, supervising inspector of the steamboat inspection service today. Heretofore the officials have simply confiscated the passage money and levied the fine. Now the officials will revoke the license of every master, in addition to the fine, where over-crowding is permitted.

Boston, July 27.—Ten men in New York, six in Boston, one in Chicago and one in Providence are the back bone of the Armenian revolutionary society, says N. H. Gulesian, the wealthy Boston Armenian who has had a warning from the organization telling him he must die Monday. The arrest of these members, he asserts, would wipe the society out of existence in this country.

FATHER'S TERRIBLE MISTAKE.

Sylvester Emerick, a Pennsylvania railroad engineer, residing at Ellerslie, Md., while hunting groundhogs yesterday on the mountains opposite Ellerslie, accidently shot and killed his 14-year-old son, Sherwood Emerick. The father had stationed the boy to watch a hole in which he thought a groundhog would go, and while he was away the boy got in front of the hole. Just as Mr. Emerick appeared he saw the reeds shake near the hole and saw his son's brown cap, which he mistook for a groundhog. Taking quick aim, he fired, and, upon going up, was horrified to find that he had shot his son in the head. Mr. Emerick picked the boy up and hurried down the mountain toward home, but the boy died while they were yet about three-quarters of a mile away.

THE RAILROAD RATE CONTROVERSY.

A renewal of hostillities between the State and Federal courts occurred at Asheville, N. C., yesterday, when Judge Lyon, presiding at a term of the Superior Court at Marion, N. C., had indicted and brought before him ticket agents of the Southern Railway at that place and Old Fort. A special locomotive was ordered out from Marion to Old Fort to bring the ticket agent to Marion. The agents were placed in custody of the sheriff, and taken to Asheville under a writ of habeas corpus from Judge Pritchard, as in the case of Wood and Wilson. Other indictments against agents, and also against the Southern Railway, are to follow at once.

Gov. Glenn wired yesterday to the State's counsel that he means to adhere to the policy which he announced from the start, in enforcing the rate law until it is adjudged to be invalid by a court having jurisdiction to pronounce such judgment.

Yesterday's developments at Marion were not unexpected, as Judge Lyon on Thursday instructed the grand jury to bring indictments. Judge Lyon will go to Asheville on Monday next to hold a two week's term of the court.

Friday was devoted in railroad circles to preparing for the impending conflict. President Finley and the other officials were engaged in a long conference behind closed doors. The railroad will enter habeas corpus proceedings in the case of the ticket agents arrested yesterday afternoon, and they will be taken to Asheville for the hearing.

A proposition was made to the railroad last night by the State's counsel, representing the governor.

This was, in effect, that President Finley issue a public address to the people of the State, setting forth that his company adheres to the position taken by its suit in the federal court; that the rate law is unconstitutional and void upon the ground that its enforcement would result in bankruptcy of the company, but that he deems it expedient to announce to the public that his company will sell tickets at the rate of 2 1-4 cents a mile from the first day of August, or from earlier date, until the first day of November, or later.

This position by the railroad, the State says, would yield no right or principle which it has asserted in its suit, and, at the same time, by selling tickets at 2¼ cents it would be strictly within the rate law of the State. Thus all indictments, suits, and penalties would cease, the cases already disposed of in the State courts would be carried to the higher courts, and the rate case could be determined in October and put into the Supreme Court of the United States for final adjudication by the first of November. This would be a happy solution of the whole difficulty, State counsel say, and result in injury to no one.

The indicted ticket agents at Marion and Old Fort, and the indictments that are to be made at Asheville next week against the Southern Railway and its agents, will be tried before a judge and petit jury, and in cases of con-
[illegible] pany, of course, cannot be put in custody of an officer, and can only be punishable by a fine, which the road will doubtless decline to pay.

It is believed that during the two weeks' term of the court Judge Lyon is expected to hold indictments will be handed in which will include the Southern Railway as a defendant. It is also expected that President Finley and other high officials will be indicted.

WILL GET DIVORCE.

R. Gordon Atchison in Richmond yesterday pleaded guilty to the charge of having forged lunch checks while in the employ of the American Locomotive Works and was immediately sentenced to serve two years at hard labor in the penitentiary, Judge Scott passed sentence, without the formality of the intervention of a jury.

True to her promise, Atchison's wife, who was formerly Mrs. Nellie Miller, through her father, W. C. Greenstreet, at once took steps to secure a divorce. It is said that there will be no trouble in securing the separation, the laws of Virginia holding that a conviction on a felony charge is ground for divorce.

Mrs. Atchison, since the arrest of her husband, has been desperately ill. She, together with her sister, Mrs. Maria Stulz, recently figured in a sensational escapade, when they were discovered returning from a three days' trip to Norfolk, where they had registered on board the steamer as the wives of men other than their husbands.

Both young women attempted to commit suicide by leaping over the side of the boat when they saw their father and husbands waiting for them on the wharf.

Atchison, whom Mrs. Miller married after Miller had divorced her, followed parties to Norfolk and informed the husbands of the whereabouts of their wives.

NINE MEN DROWNED.

During a heavy thunderstorm Thursday night a gasoline launch with 10 men on board capsized off Humber near Toronto, Canada, and only one succeeded in reaching the nearby shore.

A police constable who was patrolling the shore heard the voices of men singing on the lake, then loud cries of distress, and afterward silence.

George Shields the only survivor, said:

"We left Sunnyside for Hanlons Point, opposite Humber at 9:30 Thursday night, and were returning about 12:30. When about 300 yards from shore at Sunnyside the storm struck the launch broadside and upset it. All were thrown into the water. Some clung on, but they all seemed to disappear at once. It was pitch-dark, and I saw no more of any of them. I struggled to the shore and walked home as best I could."

Cured of Lung Trouble.

"It is now eleven years since I had a narrow escape from consumption," writes C. O. Floyd, a leading business man of Kershaw, S. C. "I had run down in weight to 135 pounds, and coughing was constant, both by day and by night. Finally I began taking Dr. King's New Discovery, and continued this for about six months, when my cough and lung trouble were entirely gone and I was restored to my normal weight, 170 pounds." Thousands of persons are healed every year. Guaranteed at E. S. Leadbeater & Son's drug store.

Today's Telegraphic News.

Waiting for the Verdict.

Boise, Idaho, July 27.—As soon as Judge Fremont Wood's instructions are concluded, the Haywood case will go the jury. Not one looks for an early verdict. Few think there will be anything but a disagreement.

Of the court's instructions there are 15,000 words. The defense's testimony in support of the charge that a mine owners' conspiracy existed against the Western Federation of Miners is ruled out.

The jurors are told to ignore all accounts of violence and deportations by troops and citizens in Colorado.

If there is circumstantial evidence apart from Orchard's testimony sufficient to establish Haywood' guilt, a verdict of guilty must be returned.

On the surface, the instructions would seem to favor the defense. The real fact is they favor the Idaho law.

The judge was careful in this respect, and, as a result, has issued instructions that are probably the most voluminous in the criminal history of this country. The court read them carefully and every juror listened attentively. Summing up the 15,000 and odd words it can be stated that Judge Wood insisted that the jury must convict, if at all, after every reasonable doubt has been removed, and he very minutely analyzed what a reasonable doubt is, according to law.

Boise, Idaho, July 27.—The Haywood jury has retired to consider their verdict.

Revived at Shrine.

Chicago, July 27.—Pilgrims to the shrine of St Ann yesterday, the last of the Novena, or nine days of prayer at St. Joseph's Church, where the shrine is located, saw Mrs. Elizabeth Bodan, an old woman who was injured and thought dead, revived and enabled to walk out of the church and board a street car. Mrs. Bodan was crossing the street near the church when she was knocked down and run over by a peddler's wagon. Relatives who accompanied her wished to have her taken to the shrine to test the healing powers of the holy relic, a bone of St. Ann, brought from Toronto. The unconscious woman was carried to the alter, the lame, blind and sick making way while the apparently lifeless body was sprinkled with holy water and prayers said. In a few minutes Mrs. Bodan revived and walked from the church. Yesterday was the day of climax for miracles of healing at the shrine. Throughout the day sufferers deposited canes, crutches, artificial limbs and other apparatus, in a pile before the altar, each one departing without artificial aid.

Pittsburg, July 27.—Pittsburg society women have developed a morbid fad in having their vermiform appendices removed, and the amputation has become so much in vogue as to have become requisite to enjoy social equality with the upper set. Girls to Join Mormans.

Boston, July 27.—Hurrying across the continent last night to join the Mormons in Utah is another group of 123 European girl converts, representing six nations, accompanied by eighteen missionaries, who have been laboring for the church abroad for several months. They arrived in Boston on the steamship Republic Thursday night. All of these girls are well supplied with funds, their own savings. A few hundred dollars is the average, but some of them, coming of families rich in their own country, have thousands of dollars. Most of them came from Germany and Holland. Despite the protests of many Boston people and the watchfulness of the immigration officials these groups of Mormon converts arrive in Boston with unfailing regularity every month. During the last year at least twelve steamers have entered port, with an average of over 100 on board.

Killed by Electric Car.

New York, July 27.—One man was killed and six persons were injured when a Third avenue trolley car crashed into a truck today and, sweeping it aside, ran down a man and two horses. Passengers in the car said the motorman was proceeding at a reckless speed, paying little attention to crossings. At 150th street a truckman was on the track. He tried to pull to one side but did not have time. When the crash came the passengers were thrown violently about the car and several were cut by glass from shattered windows. After pushing the truck aside the car struck Louis Kiernan a driver, who had been leading two horses in front of the truck. He had been knocked down by the truck and the car passed over his abdomen. He died almost immediately, but his body was not extricated for an hour.

Railroad Accident.

Butler, Pa., July 27.—A wreck occurred at Isle station on the New Queens Junction and New Castle extension of the Alleghny and Western Railroad today. The rails broke under the engine drawing a long train of passenger coaches filled with five hundred employes of the Buffalo, Rochester and Pittsburg railroad on their way from Dubois to New Castle to a picnic at Cascade Park. The engine ploughed into a ditch, turned over the baggage car and one passenger coach were piled up on it. Three were killed outright and a score injured.

Senator Pettus Dying.

Hot Springs, N. C., July 27.—United States Senator Pettus, of Alabama, is dying. He fell unconscious at the breakfast table here yesterday and has not revived. Physicians pronounce his case hopeless and say the end may come at any moment. Senator Morgan, also of Alabama, died but two months ago.

State vs. Federal Authorities.

Asheville, N. C., July 27.—Governor Glenn is tired talking compromise to the North Carolina railroads. If there is to be a clash between the State and federal authorities he is ready for it now.

No reply has been received to the governor's ultimatum yesterday. He is acting accordingly on the theory that his proposition has been rejected and going briskly forward with his campaign regardless alike of the railroads, the federal judiciary and the possibility of a fight with the United States government.

Two more Southern Railway agents, one at Marion and one at Old Fort, have been indicted for a violation of the railroad rate law. Fresh indictments are expected next week. President Finley and other high railroad officials will probably be among those against whom true bills will be returned. The railroad is preparing to repeat its habeas corpus tactics and Governor Glenn says such writ from the United States court will be virtually disregarded. Should resistance be continued, however, he says he will lose no time in getting the lawmakers together to revoke the transportation company's charter.

President Finley Arrested.

Asheville. N. C., July 27.—President Finley of the Southern Railway was arrested here today upon a warrant issued by the state authorities and he was immediately released on a writ of heabes corpus issued by Judge Pritchard of the United States district court.

Another warrant was issued upon the findings of the grand jury for the arrest of O. C. Wilson, a Southern Railway ticket agent. The action was anticipated by the railroad officials who knew that the grand jury was contemplating such a move. President Finley's attorney were prepared for the mergency and obtained the writ of habeas corpus from the federal court before the warrant was served.

A policeman went to Finley's temporary headquarters at the Battery Park Hotel and served the warrant upon him. As they were preparing to leave the room, a deputy United States marshal appeared upon the scene with the federal writ and took the prisoner from the policeman. The arrest of Mr. Finley is looked upon here as the culmination of the troubles between the federal and State authorities and further developments is awaited with great interest.

Suspected of Murder.

New York, July 27.—Joseph P. Walsh, a driver of 1726 Park avenue, was arrested today on suspicion of being implicated in the murder of Dr. James Edmund Russell, who was found dying in Harlem last Sunday, after he appearently had been choked. Walsh was taken to the Tombs. The police at first said Dr. Russell died a natural death and that no action would be taken. The evidence against Walsh was not disclosed on the ground that other arrests were planned.

The Magills to be Bailed.

Clinton, Ill., July 27.—In view of unusual circumstances surrounding the case and because several months must elapse before they can be called to trial, States Attorney Miller is disposed to grant bail to Fred and Faye Graham Magill, charged with killing Magill's first wife, and they probably will be released under heavy bail after their arrival tonight.

Another Victim.

New York, July 27.—Believed to have been eight-year-old Katie Tietschler, of 349 east Thirteenth street, it is feared, is suffering the fate today of more than one hundred women and girl children who have fallen victims to fiends in and about New York in the last few weeks.

To this letter the President made a characteristic reply in which he fully agrees with all the praise given by the admiral.

New York Stock Market.

New York, July 27.—Steady cables were ignored this morning and the bears hammered the local market on favorable forecaster. First prices were down 5 to 11 points. Several of the leading commission houses were large sellers. After the call shorts bid prices up 3 to 4 points from the lowest, but there was very little demand from outsiders. Although there was absence of impressive trading in the market there seemed to be a good sentiment to buy.

A VERSATILE SENATOR.

From reports which continue to emanate from Alexandria concerning State Senator Machen, of that city, and the various matters he will present to the next legislature, we respectfully suggest to other prospective Senators—and Mr. Machen is in this class, not yet having either been nominated or elected—that they had better "sit up and take notice" right away unless they expect Mr. Machen, of Alexandria, to be the whole show and themselves side attractions next winter. That Mr. Machen is a gentleman of much versatility and some political shrewdness we have no doubt, and unless carried too far he has mapped out a campaign in the Senate which may, if successfully carried out, bring him where he seemingly desires to be, to-wit, in the limelight; but we would suggest in all kindness to the distinguished prospective Senator from the good old town of Alexandria that there is such a thing as going too far. Now, it is probable that some of Mr. Machen's colleagues may desire to father some little legislation next winter, but Mr. Machen doesn't look at it this way. Already he has announced himself parent of the "unwritten law" bill, which, of course, won't come in a thousand miles of passing, and so doesn't count, save for a little notoriety; then comes an announcement that Mr. Machen would father a two cent rate bill, this kind of bills being very popular just now and apt to win favor for the politician, and now he is represented as preparing a bill for introduction regulating the divorce evil. We have become so interested in these Alexandria dispatches concerning Senator Machen and his bills that the hot weather has passed almost unnoticed; but while of more than passing interest, the matter is rather a serious one for Mr. Machen's senatorial colleagues. Unless they bestir themselves Machen will surely reap all the glory at the next session. —[Fredericksburg Lance.

THE DOG NUISANCE.

It is said that in almost speaking distance of police headquarters and the city offices are a number of unlicensed dog, owned by persons well able to pay for them. The Auditor says there is a flood in the Fourth ward, which according to the assessor's books, 35 houses are listed and numbered, and in these houses 51 males, 35 white and 16 colored, are assessed with head taxes, and in the whole block but three dogs are licensed, and it is not unreasonable to assume that a dog census would disclose at least a few more. Only 620 licenses have been issued to this date. On July 27, 1902—765 licenses had been issued and the next year 1903 on same date 775. For several years many persons have evaded payment, for in 1902 the licenses issued amounted to 800 and the next year 808 as against 760 in 1905, and 740 in 1906. Everyone knows that Alexandria was never so overburdened with dogs as it is today and there should be a systematic effort made to get rid of the hundreds worthless curs, a menace during the day, and a great nuisance at night. The war on these pests should be relentless, and drastic measures used to make the owners of dogs who try to escape payment pay a fine. It is fully twenty years and more since the dog cart was out, and if the Mayor orders it out again, as it is rumored he will do, the order will be commended by a majority of the community who dodge dangerous curs during the day and are kept awake by them at night.

FORFEITED HIS COLLATERAL.

Officer Bell last night arrested Armelia Sims for riding a bicycle without a light. The accused left $2 for his appearance in the Police Court, but he could not be found when the case was called and forfeited the amount. The law forbidding the riding of bicycles on sidewalks is often violated, and it is hoped the police will bring the practice to a close before some person is injured.

APPOINTED CAPTAIN.

Capt. Frank Phillips, of this city, has been appointed captain of the Norfolk steamer Washington, taking the place of Mann. Mr. Phillips is an exed river man.

ACCUSED DISMISSED.

A. B. Creasy and E. R. Harris, employees of the Western Union Telegraph Company, were before the Police Court this morning charged with placing a pole in front of a house owned by Mr. William Rogers, on upper King street, against the latter's protest. It appeared from the evidence that a pole had previously been erected on the same spot by the electric railway company, and that the telegraph company had removed the same and placed a new pole in its stead. After considering all the circumstances in the case, Justice Caton dismissed the accused, as he knew of no law by which he could impose a penalty against them for their action in erecting the pole. His action, however, was without prejudice to the plaintiff, recognizing as he did the rights of property-owners, and the justice suggested that if Mr. Rogers desired to carry the case any further he could consult his attorney and be guided by his judgment.

After the case had been disposed of in the Police Court Mr. Rogers proceeded to the house in front of which the pole had been placed and arming himself with an axe proceeded to cut down the obstruction. He made several strokes with the axe and then turned it over to a colored man who soon brought the pole down with a crash.

THE SECOND PRESBYTERIAN CHURCH.

Our pastor leaves today for Haymarket and Greenwich, where he will preach tomorrow. It is the desire of the Association to encourage these small country churches and help them find pastors. On Monday he will go on to Lynchburg, Thursday to Forest, Friday to Rich Valley, in Smyth county, where he was at one time principal of the Ellendale High School, and on the Monday following to his home in Bristol. Most of the month of August he and Mrs. Sevier and baby will spend camping on the Holston river.

The services of the church will be held regularly during our pastor's absence. The prayer meeting will be conducted by our elders, and on Sunday preachers from a distance will be secured. Mr. Sevier's class mate and close friend, Rev. L. F. Ross, of Lamar, Mo., will occupy the pulpit August 18th and 25th. Mr. Ross is a young man of rare talents, fluent delivery and deep consecration. —[Presbyterian.

DOCTOR SHOT BY NEGRO.

Dr. George Hoge, of Unison, Loudoun county, yesterday evening while passing along B street, between Sixth and Seventh streets, Washington, was shot through the left leg by a negro who, after his arrest, gave the name of George Montgomery, 24 years old, and said he lived in Washington. The police say that Montgomery admits he is the negro who shot Brakeman Johnson on a Chesapeake and Ohio train last Wednesday morning between Catlett's and Nokesville. The negro's assault on Dr. Hoge appears to have been due to pure viciousness. He told the police that the pistol "happened" to go off as Dr. Hoge was passing. After Montgomery admitted that he was the man who shot the Chesapeake and Ohio brakeman, he said it was because he was being forced into a "Jim Crow" car. The police did not call his attention to the fact that the train on which he shot the brakeman, and from which he jumped was a freight train and therefore had no "Jim-Crow car.

POLICE COURT.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

Armelia Sims, charged with riding a bicycle without a light at night, forfeited his collateral by failing to appear.

Mary Conway, colored, charged with assaulting Bessie Bryant, also colored, was fined $2.50.

A. B. Creasy and E. R. Harris, charged with placing a telegraph pole in front of a residence without the owner's consent, were dismissed.

Wm. Benzette, Elmer Lewis, Timothy Madden, Edward Drowns, George Watson and John Watson, suspected of robbing Washington-Southern Railway cars had their case continued.

CORPORATION COURT.

[Judge L. C. Barley presiding.]

After deliberating two hours yesterday evening the jury returned a verdict favoring the plaintiff in the case of Estella Lee against Margaret Clarke and others. The object of the suit was to ascertain whether a paper purporting to be the last will and testament of Harrison Allen, colored, was the true last will, and the jury decided it was not.

Today the will of Marshall Kyer, colored, was admitted to probate. The deceased left his estate, valued at about $600, to his children.

W. T. Gorham vs. O. J. Nugent et als.; case dismissed.

CARS ROBBED.

Herbert Griffith, yardmaster of the Southern Railway Company, reported to the station house yesterday evening that certain cars in the yards of the railway company, in the southwestern section of the city, had been robbed. Officers Bell, Garvey and Young later arrested Wm. Benzette, Elmer Lewis, and Timothy Madden, on suspicion of knowing who committed the robbery.

The suspected men were brought before the Police Court this morning and the examination of the case was postponed.

COOLER WEATHER.

A refreshing northwest breeze early last night broke the back of the hot wave which had hovered over this vicinity during the past two weeks, and brought about much more pleasant meteorological conditions. The temperature fell about 20° during the the night and the mercury stood at 68° at 7 o'clock this morning. The change came without a storm and the rain which many have said would precede the change. At 2 o'clock this evening the mercury registered 82°.

ATTEMPTED SUICIDE.

A. S. Belote, of 631 G street southwest, Washington, late Thursday attempted to throw himself in front of a railroad train near the W. & O. junction. He was dragged from the track, however, before he received any injury. Belote had been grieving over the drowning of his son at Poolesville last Sunday.

Bulla, of the M. E. Church South, conducted the services at the interment. Those who served as pallbearers at the grave were: P. V. D. Conway, Charles L. Conway, Cassius M. Chichester, Edgar Marburg, Judge Henry Chichester, and Lucien C. Smith, nephews and grandnephews of the deceased.

ALARM OF FIRE.

There was an alarm of fire shortly before two o'clock this afternoon caused by a slight blaze on the roof of a house in the alley on the south side of Wolfe street, between Fairfax and Lee. The flames were extinguished by neighbors before the engines reached the scene. The buggy in which Chief Pettey was riding to the fire had its shafts broken in turning at Prince and Lee streets, the horse having fallen. The chief escaped injury.

ANOTHER DEFEAT.

Besides their children and grandchildren, who were present, about 90 relatives and friends called during the evening to pay their respects and offer congratulations. Mr. Reese was in the grocery business in this city for many years. Mrs. Reese is the daughter of Robert H. Miller, of Alexandria, Va.—[Baltimore Sun.

COLLISION AT DEPOT.

A freight train which was being backed eastward at the intersection of Wolfe and Henry streets at 4:20 o'clock this morning collided with a "dead" engine that was on a track leading to the machine shop of the Southern Railway. A stock car was thrown from the track and somewhat damaged, as was also the locomotive with which it collided. The track was torn up for several yards.

LOCAL BREVITIES.

The blanks to be used in the examination of public school teachers next week have been received by the superintendents of schools in this city and vicinity.

There was an abundant supply of country produce in market this morning. Prices in the main had undergone but little change from those given in the Gazette last week. Home-grown tomatoes were abundant and they were selling at 10 a 15 cents per quarter peck.

Negotiations are said to be pending for the sale of the big houseboat now anchored in the river nearly opposite this city to a club composed of Washington people. The crew of the steam tug Bartholdi, which was used to transport passengers between Alexandria and the houseboat, has been laid off, and the boat is laid off indefinitely.

A Greek living on the Hayfield farm in Fairfax county swore out a warrant yesterday against G. Y. Dodge, whom he charged with trespass and with removing a gate, which was locked from its hinges. Constable A. J. Payne made the arrested and conducted the accused before Justice Triplett. The latter dismissed the case at the cost of the complainant.

The body of Walter Stephens, who died at the Alexandria Hospital Thursday morning from injuries received by being run over by a freight train on the Southern Railway at Brandy Station, Wednesday last, were interred here by Damaine & Son today. THESE CITIES AGAINST IT.

Municipal Ownership Turned Down In Various Places.

The voters of Colorado City have refused to sanction a bond issue for a municipal lighting plant.

The proposition to bond Willisville, Ill., for an electric light plant was defeated at a recent election.

The city council of South Sharon, Pa., has decided not to issue bonds for an electric light plant.

Lake Forest, Ill., voted down the proposition to buy the works of the Lake Forest Water company. The vote stood 292 to 68.

The Pittsburg (Kan.) Headlight states that at a recent election the proposition to bond the city for the purchase of the waterworks was defeated by 836 to 303.

The Waterloo (Ia.) Reporter states that Strawberry Point, in that state, after employing experts to investigate the matter has decided against a municipal light plant and in favor of a franchise.

The final abandonment of municipal ownership by Muncie, Ind., is an assured fact. The machinery of the electric light plant, which broke down a year ago after being in operation fourteen years, has been sold at a fraction of its cost. The city had invested $36,000 in the plant.

Apparently the voters of Bryan, O., do not regard municipal ownership as so much of a success that they want more of it, for they have defeated an ordinance providing for a bond issue of $40,000 for the improvement of the lighting and water plants. This illustrates one of the evil results of the system, for the money was needed to equip the plants with new and more economical machinery.

Van W. Welsh, village clerk of Beverly, O., writes as follows in response to a request for the reasons for the sale by that village of its electric light plant: "Will say the greatest reason for selling the plant was that the village could get no satisfactory service from plant in the manner it was being handled. The plant has been sold to local parties with the hope of getting better service in the future."

Rutherford, N. J., has decided not to go into the lighting business. This decision was reached at a public meeting called by the mayor to act upon the report of a committee of citizens which had been for a year making a thorough investigation of the subject. The report was unfavorable to the establishment of either a gas or an electric light plant and stated that a study of the subject showed that "there have been more failures than successes." There was no hostility to municipal ownership as a theory, but a grave doubt as to its practicability.

GETTING READY TO SELL.

Valley City, N. D., and Souderton, Pa., Tired of Their Electric Lighting Plants.

Valley City, N. D., has decided by a vote of nearly three to one to sell its electric light plant, every ward in the city voting in favor of the sale. In explaining the cause of this action a local banker writes that, like most such enterprises, the Valley City plant "has become a burden to the city" and has been furnishing poor lights for the past two years. For this reason and because of increasing prices many have deserted the service.

The dissatisfaction with the service has been growing a long time. Two attempts were made to dispose of it three years ago. The first bids were rejected as being too low. The next bid, accepted by the council, was not in accordance with the specifications, and another bidder secured an injunction restraining the sale. Many business houses have installed private gasoline lighting systems of their own.

According to the Electrical World, the town council of Souderton, Pa., is considering the proposition of abandoning the borough electric light plant and purchasing electricity to operate the borough lighting system, the West Telford Electric company having offered to furnish electric energy at a lower price than the borough can manufacture it.

Best Medicine in the World for Colic and Diarrhoea.

"I find Chamberlain's Colic, Cholera and Diarrhoea Remedy to be the best remedy in the world," says Mr. C. L. Carter of Skirum, Ala. "I am subject to colic and diarrhoea. Last spring it seemed as though I would die, and I think I would if I hadn't taken Chamberlain's Colic, Cholera and Diarrhoea Remedy. I haven't been troubled with it since until this week, when I had a severe attack and took half a bottle of the twenty-five cent size Chamberlain's Colic, Cholera and Diarrhoea Remedy, and this morning I feel like a new man." For sale by W. F. Creighton & Co., and Gibson and Timberman.

Wise Counsel from the South.

"I want to give some valuable advice to those who suffer with lame back and kidney trouble," says J. K. Blankenship, of Beck, Tenn. "I have proved to an absolute certainty that Electric Bitters will positively cure this distressing condition. The first bottle gave me great relief and after taking a few more bottles I was completely cured; so completely that it becomes a pleasure to recommend this great remedy." Sold under guarantee at E. S. Lerdbeater & Son's drug store.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart, or The Kidneys. Trouble of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys, as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for sample and free Book.
